

trial at the Northern Great Plains Experiment Station, Mandan, North Dakota. **Battle.** A seedling of **Wealthy** of large size with yellowish, red-splashed skin and pinkish, juicy flesh resembling a raspberry in flavor. Season late August to early September, coming just before **Dutchess**. Should make an excellent cooking apple and is good for dessert. (See reports of the Horticulturist, Experimental Farms, Ottawa, Canada, 1906-1915, in which will be found a full account of the development of the remarkable collection of seedlings at the Experimental Farms, Ottawa.)

*Malus sylvestris* Miller. (Malaceae.) 44715. **Apple scions** from Ottawa, Canada. Presented by Mr. W. T. Macoun, Dominion Horticulturist, Central Experiment Farms, for trial at the Northern Great Plains Experiment Station, Mandan, North Dakota. **Drumbo.** A **Winter St. Lawrence** seedling of large size with pale yellow, crimson-splashed skin and rather coarse, juicy, white flesh. Flavor subacid; resembles **Winter St. Lawrence**, but is a better keeper. (See reports of the Horticulturist, Experimental Farms, Ottawa, Canada, 1906-1915, in which will be found a full account of the development of the remarkable collection of seedlings at the Experimental Farms, Ottawa.)

*Malus sylvestris* Miller. (Malaceae.) 44716. **Apple scions** from Ottawa, Canada. Presented by Mr. W. T. Macoun, Dominion Horticulturist, Central Experiment Farms, for trial at the Northern Great Plains Experiment Station, Mandan, North Dakota. **Galetta.** A **Winter St. Lawrence** seedling above medium size; color yellow with a red cheek; flesh white, tender and juicy. A good eating apple, resembling **Wealthy** in outward appearance. (See the Reports of the Horticulturist, Experimental Farms, Ottawa, Canada, 1906-1915, in which will be found a full account of the development of the remarkable collection of seedlings at the Experimental Farms, Ottawa.)

*Malus sylvestris* Miller. (Malaceae.) 44717. **Apple scions** from Ottawa, Canada. Presented by Mr. W. T. Macoun, Dominion Horticulturist, Central Experiment Farms, for trial at the Northern Great Plains Experiment Station, Mandan, North Dakota. **Jethro.** A seedling of **Wealthy** of medium size, having yellow, red, orange and carmine-splashed skin, and yellowish, subacid, juicy flesh. (See Reports of the Horticulturist Experimental
